Allowable Subject Matter

2. Claims 91-119 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

Claim 91 recites, inter alia, "*an integrated module comprising: first active circuit chip wire bonded to the single interconnect substrate, the first active chip comprising a first portion to perform a first RF and IF function and a second portion to perform a second RF and IF function; and a second discrete component situated on said single interconnect substrate*"; and in the combination with other claimed features.

Claim 111 recites, inter alia, "*the conductive strip situated between the first and second active circuit chips, a metal lid covering the first and second active circuit chips, the metal lid contacting the conductive ring and the conductive strip, wherein the metal lid, the conductive ring, and the conductive strip substantially prevent electromagnetic interference from reaching the first and second active circuit chips*".
